SHAW Construction Services

Custom Homes & Remodeling

Providing Quality Workmanship for Projects Large and Small

by Lauren Stumberg

These days home improvement shows are more popular than ever! We watch on television as these houses get the ultimate makeovers, then we look around our own homes and see all kinds of things that could use an upgrade. Only problem is, DIY isn't all that it's cracked up to be!

Instead of trying to tackle those home improvement, remodeling or even building projects yourself, why not call someone who has the expertise to get the job done right? Shaw Constructions

Services can help you with everything from small jobs all the way to building your custom dream home.

"We help our clients with everything from small projects like sheet rock installation, rot repair and even painting to larger jobs like kitchen and bathroom remodels. In addition to that, we can build your custom home, tackle home additions, garages and barns/shops.

Shaw grew up in the construction business, learning his skills from his father. He later went on to work for a remodeling company in the College Station area and for a couple of local Boerne-based homebuilders as well. Altogether he has close to 15 years experience in the remodeling industry and about eight years of home building experience. "Starting my own business had been on my mind for a long time and I finally decided it was time to pursue that dream," said Shaw. "We started our business last May and have been working hard ever since."

When it comes to projects, Shaw welcomes you to come with your own plans or he has resources for architects if needed. According to Shaw, "We pride ourselves on being able to help our clients narrow down their budget and speed up the process. We try to help them get everything selected and ordered before we begin. Scheduling is a big part of what sets us apart. We focus on getting people lined out ahead of time so our projects get done in a timely manner."

Customer service is extremely important to the Shaws. "We focus on one-on-one interaction with our customers, pay close attention to detail and I try to give my best input and recommendations based on my experience," Ryan said.

Shaw and his wife Michelle are originally from Corpus Christi, but fell in love with Boerne and decided that this was the perfect place to plant roots for both their business and their growing family. The couple has one 3-year-old daughter and a son who was just born at the end of June! "We live here and have ties to the community. We love the hill country and are excited to help our friends and neighbors with their building and remodeling needs.

Shaw Construction Services strives to make the construction process, no matter how big or small, as smooth as possible while delivering quality workmanship. SBM
